Instructions for Uploading COCs into the SMO CLPSS Portal:

Regional requirements for COC submission are not replaced by this procedure unless directed by the Region. EPA requires that the COCs are uploaded as soon as possible after samples have shipped.

1. Export the .xml file from Scribe using the Export button located on the top left toolbar and select the COC XML File (*.xml) option.
 - In the Export options, select the CLP Region Copy (Includes additional Site and Geospatial Information).
2. Log in to the SMO CLPSS Portal Site located at <https://www.smoclpss.com/smoportal> using your Username and Password. If you do not have a Username and Password, register for access using your Organization.

 - NOTE: The file will be marked with a status of either Ready to Submit, No Matching Case # or No Matching Lab Name. If the file does not have a status of Ready to Submit, ensure that the Case number, Lab Name and Lab State listed on your Laboratory Assignment were entered correctly on the COC. Use the exact format/punctuation of the Lab Name for best results.
4. Click the SUBMIT button and you will be taken to a page that indicates whether the file has been accepted for further use within the CLP program.
